

# OSMH Full Project Delivery

*From concept to operation – end-to-end delivery of OSMH implementation.*

## At a Glance

Ideal for Municipalities and Real Estate Owners ready to implement. MHP handles the full lifecycle of an OSMH: planning, financing, design, construction, launch, and operation.

## What We Deliver

- Turnkey delivery including design, permits, construction, and operation.
- Structuring and financing models to enable Public-Private Partnerships (PPPs).
- Integration with public transport, logistics, and energy systems.
- Asset management and operational set-up, post-launch.
- Regular updates and decision points to help ensure plans stay on track.

## Key Benefits

-  Accelerates delivery from idea to operation.
-  Reduces complexity with a single point of accountability.
-  Integrates mobility, energy, and community functions.

## How It Works

1. Contact us to request the basic structure of our Full Project Delivery.
2. Also, let's clarify who does what.
3. Sign an Engagement Letter. Let's get started!
4. Co-develop project scope and objectives.
5. Structure financing and partnerships.
6. Deliver design, permits, and construction.
7. Support operational launch and ensure steady management.
8. Site opening.
9. Ongoing operation of OSMH.

Duration: 24–36 months. Price: Subject to detail and Engagement Letter. Given the strategic nature of work, reasonable chances to apply for public grants, and similar, to help fund investment.
